

# SRIC3 2021 Space EuroMoonMars Training Hybrid EMMESI Workshop

**Space Renaissance International (SRI) Medici Fund** is happy to announce that, due to the generosity of our Education Sponsor, **INTERNATIONAL LUNAR EXPLORATION WORKING GROUP**, we are able to award ten (10) posts to a **Training Hybrid EMMESI Workshop** for the first ten (10) Students to register for the 2021 Space Renaissance Congress and submit an application (links below). The applicants are also invited to join Space Renaissance – membership is not required to win.

## Training Hybrid EMMESI Workshop

### EuroMoonMars Earth Space Innovation

The **Medici Fund** was established by **Space Renaissance International** with the goal to support the renaissance of our civilization in space and, namely, the science and the enabling technology for the civilian space development. This is named after the influential Renaissance Italy family who were renowned for their generosity of funding for the arts and sciences. As a non-profit grant making body (equivalent to the US 501(c)(3) Private Operating Foundation) SRI operates the Medici Fund Program.

This will soon become one of the largest not-for-profit grant-based collaborations and equity partnerships for space entrepreneurs, but not only. The Medici Fund will also fund, through the Space Renaissance Academy, one of the top educational scholarship and bursary programs in the civilian space sector, and provide grant-aid and sponsorship opportunities for members to enable them to participate in a range of projects undertaken by partner organizations.

The **2021 Space Renaissance Congress (SRIC3)** will take place in a virtual format and will provide attendees with cutting-edge developments in Space Settlement & Exploration, Human Rights, Ethics, Policies, Engineering, Entrepreneurship, Energy, Economics and Education from leaders in their respective fields. Experts in research and industry will present the emerging technologies and future directions in their field.

Students at all ages who are interested in Space Settlement & Exploration – e.g. science, technology, philosophy, policy, law, art – are encouraged to participate to the 2021 Space Renaissance Congress.

Applicants are kindly invited to join the Space Renaissance Crew, where they will have the unique opportunity to help developing the Space Renaissance worldwide and beyond!

Please upload your application (1 page maximum) indicating yourself and your interest for Lunar exploration, settlements and Space Renaissance here: <https://2021.spacerenaissance.space/index.php/ilewg-sponsored-programme/>
